HOME OWNERS GROW LESS

President of Farm Congress, Meeting at Plano, Points to Need of Change.

Plano, Ill., Sept. 23 .- "There is a Today. Contract. American Locomotive 34 ment we cannot verify, but it is alto great margin of expense somewhere between producer and consumer which leads to the justly founded complaint of the ultimate consumer of the high cost of living," said Charles F. Sanford, president of the farmers' national congress, in calling the 33rd annual session to order here today. This Mr. Sanford asserted leads to confusion in the public mind as to the real status of the farmer and the profits arising from his occupation. During the past two decades the agricultural industry has not kept pace with the increase of population, falling behind 15.3 per cent; during this same period there has come an extraordinary increase in the valuation of farm lands until it is no longer an easy or simple matter for the average man to become the owner of a well improved farm. Moreover, the percentage of tenant farmers is steadlly increasing, in some states with alarming rapidity. It cannot be said with any show of reason that the growth of a tenant class indicates a stable or desirable economic condition

LITTLE COLUMBUS MISS POINTS WITH PRIDE TO POINTS WON IN BABY CONTEST

Irs. Mark Culp and Baby Louise.

Here's little Louise Shermania Cuip aged 151/2 months, and her goodlooking young mother, Mrs. Mark Culp. This baby comes near to being perfect. She scored 98 out of a possible 100 points in the "better babies" contest at the recent Ohio state fair at Columbus. She won the first prize of \$100 and a bronze medal over 613 other baby competiors. She lives with her parents in Columbus.

A Home Cure Given by One Who Had It In the spring of 1803 I was attacked by Muscular and Indiaminatory Rheumatian. I suffered as only those who have it know, for over three years. I tried remedy after remedy, and doctor after doctor, but such relief as I received was only temporary. Finally, I found a remedy that cared me completely, and it has never returned. I have given it to a number who were terribly afflicted and even bedridden with Rheumatian, and it effected a cure in every case. I want every sufferer from any form of rheumatic trouble to try this marvelous healing power. Don't send a cent; simply mail your name and address and I will send it free to try. After you have used it and it has proven itself to be that long-locked-for means of curing your Rheumatian, you may send the price of it, one dollar, but, understand, I do not want your money unless you are perfectly satisfied to send it. Inn't that fair? Why suffer any longer when positive relief is thus offered you free? Don't delay.
